CHICAGO, Dec. 21.-Rain in Kansas today emphasized wheat weakness which started on disappointing cable quotations and bearish news from Russia and the Argentine. Before word came that moisture had fallen in the Southwest there had been predictions of impending showers, so that sentiment regarding possible drought effects underwent considerable change. Almost equally disconcerting, however, was the absence of any sign of bullish enthusiasm at Liverpool, larger Russian offers and continued favorable reports from Argentine offsetting yester-day's advance on this side. The open-ing was 1/4 to 1/4 down. May started at 95% to 96, a loss of 16@14 to
